

NORWAY

LME CROCHET PATTERN

NORWAY BUCKET HAT

RUNE-STYLE LETTERS CROCHETED ON · STRIPED BRIM

A red bucket hat crocheted in cotton. You crochet the whole hat in red, with a striped brim in red, white and blue at the bottom. Then you crochet "NORWAY" on in readable rune-style letters, one continuous line around the front, and a little Norwegian flag on the top. If you would rather have "NORGE", the template is on the same page. Sizes from child to man.

By **Renate Dahl**

lmexplorers.com

TIP: Read the whole pattern through once first. The gauge decides the size, so crochet a little gauge swatch.

SIZE AND MATERIALS

SIZE

Measure around the head and choose the size that fits. You crochet the top until you have the stitch count for your size, the rest is the same for everyone.

Size	Stitches around	Fits head size

MATERIALS

DROPS Paris (100% cotton):

Colour	Amount
	
	
	

- Crochet hook **5 mm** (or the one that gives the right gauge)
- Stitch marker
- **Tapestry needle with a blunt tip** for the letters and the flag
- Scissors

GAUGE AND GLOSSARY

GAUGE, THE IMPORTANT KEY

14 sc x 16 rounds = 10 x 10 cm (crocheted in a spiral in single crochet on a 5 mm hook).

Crochet a little gauge swatch and measure. If the swatch is too big, switch to a thinner hook. Too small, switch to a thicker hook. The right gauge gives the right size.

ABBREVIATIONS

Short	Means

()	

The whole hat is crocheted in a spiral in single crochet, without closing off the rounds. The letters and the flag are crocheted on at the end.

PART 1: THE TOP

The top is crocheted in a spiral in single crochet, from a magic ring and outwards. Put a stitch marker in the first stitch and move it up each round. **Crochet the increase rounds until you have the stitch count for your size** (see the table on page 2), then go to PART 2.

The top is a flat circle. Stop the increases at your stitch count, and it curves nicely.

PART 2: THE SIDES

Now you crochet straight up in a spiral in red, without increases. You have the same stitch count that the top ended on, on each round. The sides are all red, the letters are crocheted on at the end.

Crochet sc round and round until the sides measure:

Child

Woman

Man

Measure from where the top curved down to the hook. The hat should cover well over the ears.

Try the hat on as you go. If you want it deeper, crochet a couple more rounds before the brim.

PART 3: THE STRIPED BRIM

The brim curves outwards and gets stripes in the flag colours: red, white and blue. You increase evenly on some of the rounds, so the brim flares out nicely. Change colour on the last step of the stitch before the change, so it stays clean.

brim 8		

Want a wider brim? Repeat one more stripe pair (two rounds white, two rounds blue) with an increase round in between. Fasten off well at the end.

PART 4: CROCHET THE LETTERS ON

Now the hat itself is done. The letters are crocheted right onto the red surface with white yarn, so they stand up, just like on the original hat. You can do it in two ways, pick the one you like best.

WAY 1: SURFACE CROCHET, RECOMMENDED

- 1 Hold the white yarn on the inside of the hat. Put the hook through the hat from the outside, where the letter is to begin, and pull up a white loop.
- 2 Put the hook in a little further along the line, pull up a new loop and draw it through the loop already on the hook. That is one slip stitch on the surface.
- 3 Continue slip stitch after slip stitch along all the lines of the letter, follow the template on page 8. Keep the spacing even, do not pull tight.
- 4 Fasten the yarn on the inside when the letter is done, and move on to the next letter.

WAY 2: CROCHET A CORD AND SEW IT ON

Crochet a long chain in white and work a row of slip stitches back along it, so you get a firm cord. Shape the cord into each letter following the template and sew it onto the hat with white yarn. That makes the letters clear and raised.

Tip: draw the letters lightly with a water-soluble marker or place pins first, so you hit the shape.
The letters are in a rune style, but fully readable, just like on your hat.

THE LETTERS: NORGE AND NORWAY

Here are the letters in rune style, both NORGE and NORWAY. Crochet them on in one continuous line, centred at the front. Each letter is about 5 to 6 cm tall. The bottom of the letters sits about 3 to 4 cm above the striped brim.

NORGE

NORGE

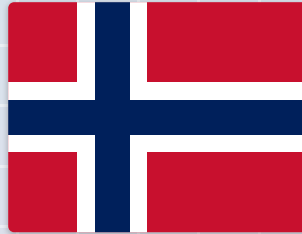

NORWAY

NORWAY

- **Centre front:** The word is centred at the front, directly opposite the seam/marker at the centre back. All the letters are on the **same line**, never split into two rows.
- **Spacing:** keep an even gap between the letters, about one letter width. The word wraps a little towards the sides, and it is meant to.

THE FLAG ON THE TOP

On the top of the hat you make a small Norwegian flag: a white cross with a blue cross inside, on the red background. The cross sits in the middle of the top and divides it into four.

HOW TO DO IT

- Find the middle of the top where the magic ring was. Imagine a cross dividing the top into four.
- Make the **white cross** first with surface crochet, or sew on a white cord: one arm forward, one back and one to each side. Make the white lines a little wide.
- Then make the **blue cross** on top of the middle of the white, a little narrower, so the white shows around the blue. Then the flag looks right.
- Fasten all ends well on the inside.

FINISHED AND CARE

CHECKLIST

- The hat is all red, with a striped brim in red, white and blue
- NORGE is in runes on one line at the centre front
- A little Norwegian flag is crocheted on the top
- All ends are woven in on the inside

CARE

- Hand wash lukewarm, or machine wash at 40 degrees (cotton takes it fine).
- Squeeze the water out in a towel, do not wring. Lay flat to dry and shape the brim.

Congratulations! You have crocheted a NORWAY rune hat, ready for the 17th of May and everything we celebrate for Norway.
