

Photo shows the style reference for the ballerina shoes, not the finished crocheted product.

LME CROCHET PATTERN - BABY

PIP'S BALLERINA SHOES

LME BABY COLLECTION - WOODLAND DREAMS

Sweet, classic baby ballerina shoes with a round toe, a little hedgehog face with two-part ears and a spike stripe on the toe, a T-bar strap, a pretty sage green picot edge, two paw prints embroidered on the sole and a tiny round tail at the back of each shoe. Five sizes, from preemie to 12 months, plus a matching hair clip with a mini spike stripe. Crocheted in the same natural colours as the rest of the Pip collection.

By Renate Dahl

lmexplorers.com

TIP: Read through the whole pattern and the size chart on page 4 before you start, and crochet a small swatch to check your gauge.

ABOUT PIP'S BALLERINA SHOES

PART OF PIP'S WORLD

Pip's ballerina shoes belong to the LME Baby Collection "Woodland Dreams". Imagine Pip himself with a little pair of shoes to potter around the forest floor in, that is exactly the feeling these ballerinas are meant to have: soft, sweet and ready for play.

STYLE

A classic ballerina shoe shape with a round toe and T-bar strap, in the same natural colours as the rest of the collection: cream, light brown and sage green. Can be mixed and matched, for example cream shoes with a sage green strap.

A GOOD FIT

Crocheted tightly, just like the rest of the amigurumi collection, so the shoe holds its shape and sits neatly on the foot without becoming floppy or too big.

MATERIALS AND YARN ALTERNATIVES

YARN

Bystrikk Merino or DROPS Cotton Merino in cream or light brown for the shoe itself, plus a small leftover of sage green for the strap and picot edge, and dark warm brown for the spike stripe and the outside of the ears (whichever cream colour you are not using on the shoe itself is used for the hedgehog face). The same yarn family as the rest of the Pip collection.

Alternative yarn: any soft cotton-blend DK-weight yarn works well, for example DROPS Safran, Hobbii Amigo or Paintbox Simply DK. Cotton is easiest to keep clean.

TOOLS AND SUPPLIES

- Heklenål 3 eller 3,5 mm · avhengig av hvor stramt du hekler
- Stoppenål med butt spiss · til all somming
- Et lite, mykt hekleknapp (se side om T-stropp) · eller en enkel løkkeløsning uten knapp
- Myk hårklype uten metalldeleler · til den matchende piggstripe-hårklypen, valgfritt
- Saks og målebånd

SIZE CHART

Measure the child's foot from heel to big toe, and choose the closest size. If you are between two sizes, choose the larger one, baby feet grow fast.

Size	Approximate age	Foot length
Preemie	preemie/small newborn	approx. 7.5 cm
0 to 3 mo	0 to 3 months	approx. 9 cm
3 to 6 mo	3 to 6 months	approx. 10 cm
6 to 9 mo	6 to 9 months	approx. 11 cm
9 to 12 mo	9 to 12 months	approx. 12 cm

The numbers in the pattern are always given in this order: preemie (0-3) 3-6 (6-9) 9-12 months. Circle the numbers for your size with a pencil before you start.

DIFFICULTY AND GAUGE

DIFFICULTY

Medium. Good practice for crocheting an oval base and shaping a shoe form.

GAUGE

Crochet tightly: approx. 20 sc x 22 rounds = 10 x 10 cm on a 3 to 3.5 mm hook. If you crochet looser, the shoe goes floppy and loses its shape.

ABBREVIATIONS (NORWEGIAN AND US)

The shoes use single crochet, a picot technique for the edge and loop stitches for the spike stripe, just like the rest of Pip's patterns. Here are the abbreviations, with the common US crochet terms alongside.

Norwegian	US	Means
lm	ch	luftmaske / chain
fm	sc	fastmaske / single crochet
kjm	sl st	kjedemaske / slip stitch
picot	picot	liten pigg: 3 lm, kjm tilbake i første av de tre luftmaskene
løkkm	loop st	løkkesmaske: se Pips egen oppskrift for full forklaring
økn	inc	økning: 2 fm i samme maske. Gir én maske mer.
m	st(s)	maske(r)
()	()	totalt antall masker på omgangen
...	*...*	gjenta det mellom stjernene så mange ganger som står bak

TIPS BEFORE YOU START

- Always crochet a test shoe in the smallest size first, if you are unsure of your gauge.
- Try the shoe gently against the foot (or a drawing of the foot) as you work the upper.
- The two shoes should match exactly, count the stitches carefully on both before moving on to the next part.

HOW THE SHOE IS BUILT

Each shoe has six parts. Crochet everything twice, once for each foot.

1. The sole

oval base, with paw prints and a little tail

3. Pip's face

a little head with two-part ears on the toe

5. The picot edge

a decorative sage green trim at the top

2. The upper

the sides and toe

4. The T-bar strap

with a closure

6. The spike stripe

between the ears on each shoe

PART 1: THE SOLE

The sole is crocheted flat, as an oval, and forms the base for the whole shoe. The numbers are given in the order preemie (0-3) 3-6 (6-9) 9-12 months.

Method: Chain the number of stitches given for your size. Starting in the 2nd chain from the hook: work 1 sc in each chain along one side, work 3 sc in the last chain (the toe tip), continue with 1 sc in each of the remaining chains on the other side, and finish the round with 2 sc in the very first stitch (the heel). You now have a flat, oval base.

Rnd	Description	Sts
1	chain 8 (9) 10 (11) 12, crochet the oval base (see method above)	20 (22) 24 (26) 28
2	inc evenly in both curved ends (approx. 6 increases in each)	32 (34) 36 (38) 40

Do not cut the yarn. You continue straight into the upper from the same thread. Feel free to embroider two small paw prints in sage green in the middle of the underside of the sole, as in the reference photo, and sew a small round tail in cream right at the back of the sole at the heel, a sweet detail that shows when the baby lifts their foot.

PART 2: THE UPPER

The upper is crocheted straight up from the outer edge of the sole, in your chosen main colour.

Rnd	Description	Sts
1	sc in each stitch around (same count as the last round of the sole)	32 (34) 36 (38) 40
2 to end	sc straight up with no increases, number of rounds: 3 (3) 4 (4) 5	32 (34) 36 (38) 40

Shape the foot opening: On the last round, only crochet over the back and side two-thirds of the round (the heel and sides), leaving the front third (over the toes) open and unworked. Fasten off, leaving a long tail. Try the shoe on the foot here, and adjust the number of rounds on the second shoe if needed, so both match.

PART 3: PIP'S FACE

A little, flat hedgehog head is sewn onto the toe of each shoe, in a colour that contrasts with the shoe itself.

Rnd	Description	Sts
1	6 sc in a magic ring	6
2	inc x 6	12
3	(1 sc, inc) x 6	18
4	18 sc straight	18

Fasten off, leaving a long tail, and press the head flat. Crochet two tiny, two-part ears: outside in dark warm brown (5 sc in a magic ring, fasten off), inside in cream (4 sc in a magic ring, fasten off), sew the light circle onto the middle of the dark one, and make 2 pairs per shoe. Sew the ears onto the top of the head, with a bit of the top peeking up over the top edge of the shoe, just like in the reference photo. Embroider a small face (two eyes, a little nose, and pink cheeks if you like) using the same technique as Pip's other motifs. Sew the hedgehog face securely onto the middle of the toe of the shoe.

PART 4: THE T-BAR STRAP AND CLOSURE

The T-bar strap runs from the middle of the toe opening, up and over the instep, to one side.

Attach the yarn in the middle front of the bottom edge of the opening. Crochet a short strap of single crochet straight over the instep, in a length that suits the size (try it against the foot). Attach the strap to one side of the shoe with a few secure stitches.

CLOSURE, TWO SAFE OPTIONS

- **Without a button (recommended for the smallest sizes):** Let the strap end in a small crocheted loop, and sew the loop directly onto the other side of the shoe. No loose button, safest for the smallest sizes.
- **With a soft crocheted button (as in the reference photo):** Crochet a small flat "button" (5 sc in a magic ring, fasten off) and sew it securely onto the side of the shoe. Slip the strap's loop over the button. Never use a hard plastic or metal button, and check that the button is firmly attached before every use.

PART 5: THE PICOT EDGE

The picot edge is crocheted in sage green, gives the shoe its classic, slightly lace-like ballerina look and a pretty colour contrast, and is crocheted last, all the way around the top opening.

Attach the yarn anywhere along the top edge. Crochet *1 sc in the next stitch, 3 ch, sl st back into the first of the three chains (one picot made)*, repeat all the way around the opening. Finish with a slip stitch and fasten the yarn securely on the inside.

PART 6: THE SPIKE STRIPE

A small spike stripe is sewn on between the ears, at the top of the hedgehog face on each shoe, Pip's signature detail instead of a bow.

Row	Description	Sts
1	chain 4 + 1 turning chain, dark warm brown	4
2 to 3	loop st in each stitch back across, 2 rows	4

Cut, leaving a long tail. Sew the spike stripe on along the centre line, between the ears and a little backward, at the top of the hedgehog face on each shoe.

THE MATCHING HAIR CLIP

The same spike stripe as on the shoes, a little bigger, sewn onto a soft hair clip with no metal parts.

Row	Description	Sts
1	chain 4 + 1 turning chain, dark warm brown	4
2 to 4	loop st in each stitch back across, 3 rows	4

Cut, leaving a long tail. Sew the spike stripe securely onto a soft hair clip with no metal parts. Remember: hair accessories should always be removed when the child is sleeping or unsupervised.

ASSEMBLY, STEP BY STEP

- 1 Crochet the sole and upper as one piece, for both shoes, and feel free to embroider paw prints and a little tail on each sole.
- 2 Crochet the hedgehog faces with two-part ears and embroider the faces, and sew one onto the toe of each shoe.
- 3 Crochet the T-bar strap on each shoe, and fasten with your chosen closure (no button, or a soft crocheted button).
- 4 Crochet the sage green picot edge around the top of both shoes.
- 5 Crochet two spike stripes and sew them on between the ears on each hedgehog face.
- 6 Fasten every loose end securely on the inside, and trim what is left.
- 7 Try both shoes on the foot one last time, and check they match in size and fit well.

SAFETY AND CARE

SAFETY

- No parts are glued. Everything is sewn on with strong, twisted cotton thread and plenty of tight stitches.
- Never use a hard plastic or metal button on the smallest sizes, choose the button-free loop closure instead.
- Check the shoes regularly for wear: loose threads, a loose hedgehog face, ears, spike stripes, tails or buttons that feel loose. Discard or repair immediately if anything is wrong.
- The shoes are intended for indoor play and cosiness, not as a substitute for soles when walking outdoors.
- This pattern is a guide for home use. If the finished product is sold, it must always be checked, tested and marked as required under current local safety requirements and regulations for children's products.

CARE AND WASHING

Hand wash in lukewarm water with a little mild soap. Gently press out the water in a towel, do not wring. Lay flat to dry, neatly shaped.

CONGRATULATIONS, THE SHOES ARE DONE!

Now you have crocheted a little pair of ballerina shoes for the Pip collection.
Perfect for photos, gifts and everyday cosiness!

THE REST OF THE LME BABY COLLECTION

- Pip, the little hedgehog
- Pip's pacifier clip
- Pip's rattle
- Pip's stroller toy
- Pip's activity toy
