LME CROCHET PATTERN - AMIGURUMI

PIP

LME BABY COLLECTION - WOODLAND DREAMS

Pip is a curious little hedgehog with a small pointed snout, soft spikes that never poke, and a sage green ruffled collar, just like Ellie. Crocheted in the same warm natural colours as the rest of the collection. A fully original LME design, finished size approx. 22 to 24 cm sitting. Medium difficulty.

By Renate Dahl

Little Montessori Explorers

lmexplorers.com

TIP: Read through the whole pattern once before you start, especially the page about the spikes, which uses a technique you may not have tried before.

ABOUT PIP

PART OF ELLIE'S WORLD

Pip is the second figure in the LME Baby Collection "Woodland Dreams", Ellie's very best friend in the forest. Where Ellie is curious and quick on her feet, Pip is the calm, curious type who noses his way to the best flower meadows and always finds the softest moss to sit on. More woodland friends are on their way into the collection over time.

STYLE

The same premium amigurumi look as Ellie: big shapes, soft transitions, calm colour changes and a friendly, rounded gaze. Pip is NOT spiky or scary, NOT realistic, and the spikes are crocheted soft, not stiff, so he is safe and nice to cuddle.

MONTESSORI-INSPIRED

Big, simple shapes and calm blocks of colour make Pip nice to feel and easy for little ones to recognise, exactly the kind of concrete, sensory play the Montessori philosophy is built on.

SIZE AND MATERIALS

FINISHED SIZE

Approx. 22 to 24 cm tall, sitting.

YARN

Bystrikk Merino gives a soft, firm amigurumi surface that works well for the soft spikes.

Colour	For	Amount
Bystrikk Merino, cream (main colour)	head, snout, ears (inside), body, arms, legs	approx. 2 skeins
Bystrikk Merino, dark warm brown	the spike panel and the outside of the ears	approx. 1.5 skeins
Bystrikk Merino, sage green	the ruffled collar	small amount
Leftover, powder pink	the cheeks	small amount
Black embroidery thread	nose, mouth, lashes and paw pad details	small amount

Alternative yarn: DROPS Cotton Merino, or any soft cotton/acrylic-blend DK/aran-weight yarn (e.g. Hobbii Amigo, Rico Ricorumi, Paintbox Simply DK), as long as you crochet tightly enough that the stuffing does not show.

HOOK AND TOOLS

- Heklenål 4 mm · eller 3,5 mm hvis du hekler løst
- Polyesterfiber til fyll · ren, vaskbar leketøyfyll
- To 16 mm sikkerhetsøyne (versjon A), eller svart broderigarn (versjon B) · se side om ansiktet
- Stoppenål med butt spiss · til all somming
- Maskemarkør · en, eller en løkke garn i annen farge
- En linjal eller to fingre · som hjelp til å måle løkkene i piggfeltet, se side om piggene
- Nål og tvinnnet bomullstråd · til å sy på ører, snute og krage
- Målebånd og saks

GAUGE AND GLOSSARY

GAUGE

Approx. 16 sc x 18 rounds = 10 x 10 cm, crocheted TIGHTLY (amigurumi tension) on a 4 mm hook. If you crochet looser than this, the stuffing shows through the stitches and Pip turns out soft and floppy instead of neat and firm.

GLOSSARY AND ABBREVIATIONS

Short	Means
lm	chain stitch
fm	single crochet (UK: double crochet)
halvstav	half double crochet
stav	double crochet
kjm	slip stitch
løkkm	loop stitch: insert the hook, wrap the yarn around two fingers or a ruler to form a loop, pull the loop through and finish as a normal sc. The loop is left standing out on the right side of the work, see the page about the spikes.
magisk ring	an adjustable starting ring that closes with no hole in the middle
økn	increase: 2 sc in the same stitch. Adds one stitch.
mink	decrease: insert the hook through two stitches at once and crochet them together as one sc. Removes one stitch.
m	stitch(es)
omg / rad	round (worked in a spiral) / row (worked back and forth)
()	the number in brackets at the end is the total stitch count for that round/row
...	repeat what is between the stars as many times as stated afterwards

The head, snout, body, arms and legs are crocheted in a spiral of single crochet, without joining the rounds. The spike panel and the collar are crocheted back and forth in rows. Place a stitch marker in the first stitch of each spiral piece.

TIPS AND HOW PIP IS BUILT

TIPS BEFORE YOU START

- Crochet a small swatch with loop stitches before starting the spike panel, so you find a loop length you like.
- Lay all the pieces out next to each other before sewing anything on, so you can see that Pip turns out symmetrical.
- Stuff a little at a time as you go, rather than all at once at the end, it gives a more even, neater shape.

HOW PIP IS BUILT

Pip is crocheted in eight pieces, which are all sewn together at the very end. No pieces are glued, and everything is sewn securely so that nothing comes loose. Get to know the pieces before you begin:

1. The head

big and round, cream

3. The ears (x2)

small and round, with a light inside

5. The arms (x2)

small and soft, short

7. The spike panel

one long panel in loop stitch, dark brown

2. The snout

small, pointed, projects out from the head

4. The body

small and round, cream

6. The legs (x2)

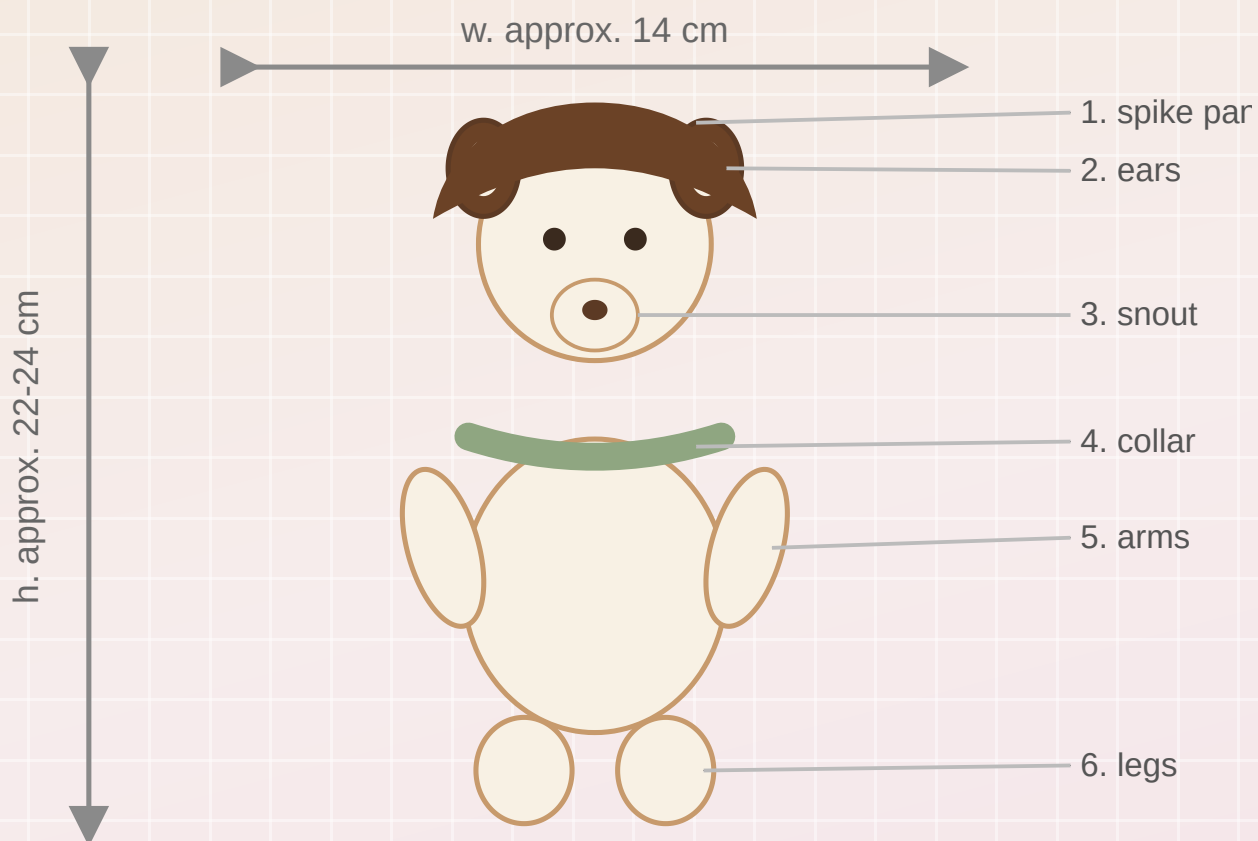

round, with embroidered paw pads

8. The collar

a sage green ruffled collar

BODY PROPORTIONS

Use this sketch as a guide while you crochet, especially to see how big the snout and the spike panel should be compared to the rest of the body.

Size sketch: Pip sitting, approx. 22 to 24 cm tall and approx. 14 cm wide across the arms.

PART 1: THE HEAD

The head is crocheted in a spiral, from the top down, in cream. It starts narrow, increases out to its widest point in the middle, stays even for a while, then decreases back down towards the neck.

Rnd	Description	Sts
1	6 sc in a magic ring	6
2	inc x 6	12
3	(1 sc, inc) x 6	18
4	(2 sc, inc) x 6	24
5	(3 sc, inc) x 6	30
6	(4 sc, inc) x 6	36
7	(5 sc, inc) x 6	42
8	(6 sc, inc) x 6	48
9	(7 sc, inc) x 6	54
10 to 17	54 sc, 8 rounds with no increases	54
18	(7 sc, dec) x 6	48
19	48 sc	48
20	(6 sc, dec) x 6	42
21	(5 sc, dec) x 6 - start stuffing firmly and evenly from here	36
22	(4 sc, dec) x 6	30
23	(3 sc, dec) x 6	24
24	(2 sc, dec) x 6	18
25	(1 sc, dec) x 6 - stuff the last bit	12
26	dec x 6	6

Do not cut the yarn. Gently gather it through the last 6 stitches and use that same yarn tail to attach the head to the body later. The head should now be firm and round, approx. 10 cm in diameter.

PART 2: THE SNOOT

Unlike Ellie's flat face patch, Pip's snout is a small, oblong piece that projects a little out from the head, just like a real hedgehog. Crocheted in cream.

Rnd	Description	Sts
1	6 sc in a magic ring	6
2	inc x 6	12
3	(1 sc, inc) x 6	18
4 to 6	18 sc, 3 rounds	18
7	(1 sc, dec) x 6	12
8	dec x 6	6

Cut, leaving a tail of approx. 20 cm. Stuff lightly and evenly, the snout should be soft but hold its shape. Sew it on securely at the bottom centre of the head, projecting slightly forward, not flat, see the face page for exact placement.

PART 3: THE EARS (MAKE 2)

Each ear is crocheted in two layers: a small circle in dark brown (the outside) and an even smaller circle in cream (the inside), which are sewn together. Crochet two of each.

THE OUTSIDE (DARK BROWN) - MAKE 2

Rnd	Description	Sts
1	6 sc in a magic ring	6
2	inc x 6	12
3	(1 sc, inc) x 6	18
4	(2 sc, inc) x 6	24

THE INSIDE (CREAM) - MAKE 2

Rnd	Description	Sts
1	6 sc in a magic ring	6
2	inc x 6	12
3	(1 sc, inc) x 6	18

Cut both pieces, leaving a tail of approx. 20 cm. Do not stuff the ears, they should be flat. Place the cream circle in the middle of the dark brown one and sew it on with running stitch, leaving an even dark rim showing. Fold each ear gently front to back, a small pinch at the bottom, before sewing it on.

Sew the ears on high up on the head, one on each side, right at the edge where the spike panel meets the cream face, see the face page for exact placement.

THE FACE

The face is what brings Pip to life. Take your time here, and try pinning things in place with safety pins before you sew or fasten anything.

EYES, TWO VERSIONS

Version A: safety eyes (age 3+)

Use 16 mm safety eyes. Insert them approx. 2.2 cm apart, high on the forehead, right above where the snout will be attached. Push the backing washer firmly into place BEFORE you finish stuffing the head, so the eye cannot be pulled back out from the inside.

Version B: embroidered eyes (baby-friendly, 0+)

For the very youngest: embroider the eyes instead, with black embroidery thread. Sew a small, dense oval or circle (satin stitch) at each eye point, leaving a tiny unstitched highlight near the top for a lively look. Fasten the threads extra securely inside the head.

NOSE, MOUTH, LASHES AND CHEEKS

- **Nose:** Embroider a small dark brown oval nose on the tip of the snout, in dense satin stitch.
- **Mouth:** From the base of the nose, embroider a small smile downward and out to each side in backstitch, using black thread.
- **Lashes:** Embroider 2 to 3 short, curved stitches with black thread above the outer corner of each eye, for the soft, dreamy look.
- **Cheeks:** Crochet two small flat circles in powder pink (6 sc in a magic ring, fasten off), and sew them lightly onto the cheeks below each eye, slightly out towards the side of the snout.

dashed = eye placement

This is roughly how the finished face can look: safety eyes, embroidered nose and mouth, lashes and pink cheeks, with the snout softly projecting forward.

PART 4: THE BODY

The body is small and round, just big enough for Pip to sit steadily. Crocheted entirely in cream, with no separate belly panel, since a hedgehog's belly and face are the same light colour.

Rnd	Description	Sts
1	6 sc in a magic ring	6
2	inc x 6	12
3	(1 sc, inc) x 6	18
4	(2 sc, inc) x 6	24
5	(3 sc, inc) x 6	30
6	(4 sc, inc) x 6	36
7	(5 sc, inc) x 6	42
8 to 17	42 sc, 10 rounds with no increases	42
18	(5 sc, dec) x 6	36
19	36 sc	36
20	(4 sc, dec) x 6 - stuff the body evenly and firmly now	30
21	(3 sc, dec) x 6	24
22	(2 sc, dec) x 6	18

Do not cut the yarn. Check that the body is filled evenly and firmly, especially at the bottom, so Pip sits steadily, then use that same yarn tail to attach the head on top of the body later.

PART 5: THE ARMS (MAKE 2)

The arms are short and soft, cream, just like the rest of the body.

Rnd	Description	Sts
1	6 sc in a magic ring	6
2	inc x 6	12
3 to 11	12 sc, 9 rounds	12

Cut the yarn, leaving a tail of approx. 20 cm. Stuff lightly and loosely, the arms should be soft and a little floppy, not stiff.

PART 6: THE LEGS AND PAWS (MAKE 2)

The legs are round and stuffed firmly, so Pip sits well. Instead of Ellie's dark hoof, each paw gets a little embroidered paw pad, just like on a real hedgehog's feet.

Rnd	Description	Sts
1	6 sc in a magic ring, cream	6
2	inc x 6	12
3	(1 sc, inc) x 6	18
4 to 14	18 sc, 11 rounds	18

Cut the yarn, leaving a tail of approx. 20 cm. Stuff firmly, especially at the bottom, so the legs can support the body when Pip is sitting.

THE PAW PADS, EMBROIDERED

Once the foot is sewn on: embroider four to five small, oval stitches in sage green or dark brown, grouped closely together at the front bottom of each foot, like a little paw pad flower. Use tight, secure stitches so they hold up to squeezing and play.

PART 7: THE SPIKES

This is Pip's signature part, and the newest technique in the whole Ellie collection: soft loop stitches that create a spiky surface without a single stiff or sharp part. The spike panel is crocheted flat in dark warm brown, and sewn on at the end.

THE LOOP STITCH TECHNIQUE

Insert the hook into the stitch as usual. Wrap the yarn around two fingers (or a ruler, for an even length) instead of taking it directly over the hook, pull up a loop, and finish the stitch as a normal single crochet. The loop stays standing as a small loop on the right side of the work. An even loop length, approx. 1.5 to 2 cm, gives the neatest result.

THE SPIKE PANEL, DARK WARM BROWN

Row	Description	Sts
1	chain 7 + 1 turning chain, loop st in each st back across	7
2	inc 1 loop st at each end	9
3	straight, loop st in each st	9
4	inc 1 loop st at each end	11
5	straight, loop st in each st	11
6	inc 1 loop st at each end	13
7 to 18	straight, loop st in each st, 12 rows	13
19	dec 1 at each end	11
20	straight, loop st in each st	11
21	dec 1 at each end	9
22	dec 1 at each end	7

Fasten off, leaving a tail of approx. 25 cm. The panel is now shaped like a long, narrow leaf, narrowest at each end and widest in the middle. One pointed end becomes the point on the forehead, the other becomes the end at the base of the back.

Sew the spike panel on along the centre line: start with one point in the middle of the forehead, right above the eyes, carry the panel over the top of the head, down the back of the head and on down the middle of the back, and fasten the other point at the base of the back, right above where the legs sit. Sew along both sides of the panel with tight stitches, so that no loops can be pulled loose.

THE SPIKES, SEEN FROM BEHIND

This sketch shows where the spike panel should sit when you look at Pip from behind: a narrow point on the forehead, wide across the whole back of the head and down the whole back, and narrow again right at the bottom.

the spike panel, seen from behind

PART 8: THE COLLAR

The sage green ruffled collar is Pip's and Ellie's shared signature, the same model on both. It is crocheted directly around the neck, where the head will meet the body.

Before sewing the head onto the body: attach sage green yarn at the top edge of the body, where the neck will be (18 sts). *1 sc in the next stitch, skip 1 stitch, 4 dc in the next stitch (a little fan), skip 1 stitch*, repeat all the way around the edge (6 fans in total). Fasten off and weave in the end.

The collar should sit as a little ruffled edge around the neck, with the head sewn on top, centred over the collar, just like on Ellie.

THE COLLAR AND SPIKES, SEEN FROM THE SIDE

This sketch shows Pip from the side: how the spike panel curves over the head and down the back, and how the collar sits right under the chin, in front of where the spike panel starts.

the collar and spikes, seen from the side

ASSEMBLY

Now all the pieces become Pip. Use safety pins to test the placement first, then sew everything firmly at the end. Everything is sewn on with tight running stitch or backstitch and strong, twisted thread, nothing is glued.

- 1 Sew the legs onto the bottom of the body, approx. 1 to 2 cm apart, so Pip sits steadily, and embroider the paw pads.
- 2 Sew the arms onto each side of the body, a little below where the neck will be.
- 3 Crochet the ruffled collar around the top edge of the body, where the neck will be.
- 4 Sew the snout onto the bottom centre of the head, projecting forward, before adding the eyes, nose, mouth, lashes and cheeks (see the face page).
- 5 Sew the head onto the body, centred over the collar. Check that the head faces forward before you sew it on completely.
- 6 Sew the ears onto the head, high up, one on each side, at the edge where the spike panel will sit.
- 7 Sew the spike panel on along the centre line, from the forehead, over the head and down the whole back (see the page about the placement of the spikes).
- 8 Fasten every loose end securely on the inside of the pieces, and trim what is left.

PHOTO GUIDE

Add your own photos of each step here once you have crocheted Pip yourself.

Finished Pip

FINISHING, SAFETY AND CARE

FINISHING TOUCHES

- Fasten every loose end securely on the inside of the pieces: weave it back and forth through a few stitches with the yarn needle, then trim what is left.
- Check over every seam, especially along the edges of the spike panel. If any stitches are loose or there are gaps, sew over them with a few extra stitches.
- Carefully trim away any stray loose threads from the loop stitches with small scissors, but never the loops themselves.

SAFETY

- No parts are glued, everything is sewn securely with strong thread. Double-check the seams on the eyes, nose, ears, snout, arms, legs and the spike panel, these are the spots that get the most tugging during play.
- If you use safety eyes (version A), Pip is intended for children aged 3 and up, since small parts can loosen over time with heavy use. For the very youngest, use version B with embroidered eyes instead.
- The spike panel's loops are soft and harmless, but should be checked regularly to make sure no loop has become so loose that a small child's finger could get caught in it. Tighten or sew over as needed.
- Always check old seams and re-sew them if you see signs of wear. Retire Pip if stuffing starts to come out, or if a piece comes loose and cannot be sewn safely back on.

WASHING AND CARE

Hand wash in lukewarm water with a little mild soap, or machine wash at 30 degrees in a wash bag. Gently press out the water in a towel, do not wring. Reshape Pip neatly and lay him flat to dry, gently coaxing the loops in the spike panel back into place with your fingers while he is still damp.

CONGRATULATIONS, PIP IS DONE!

Now you have crocheted your very own Pip, the little hedgehog. Feel free to show him off in #lmebabycollection, I love seeing what you make!

THE REST OF THE LME BABY COLLECTION

Pip is the second figure in "Woodland Dreams", in the same look, yarn choice and colour palette as Ellie. More woodland friends are on their way over time.

- Ellie, the little fawn
- Felix, the little fox
- Molly, the little lamb
- Luna, the little bunny
- Oliver, the little bear
- Ellie's pacifier clip
- Ellie's rattle
- Ellie's stroller toy
- Ellie's ballerina shoes
- Ellie's activity toy
