

LME CROCHET PATTERN

🇳🇴 NORWAY KERCHIEF 🇳🇴

TRIANGLE KERCHIEF · FLAG FRONT OR BACK

A red kerchief that matches the hat. It is a triangle with a wavy edge, flag stripes and a Norwegian flag. Two ties fasten at the back of the neck. Easy to crochet, and lovely for the 17th of May and the football World Cup.

Two versions in one pattern: you choose whether the flag sits at the front (over the forehead) or the back (down near the point). The rest is crocheted exactly the same.

TIP: Read the whole pattern through once first. Crochet a little gauge swatch, so the kerchief comes out the right size.

BEFORE YOU START

A kerchief is easy to crochet. You start at the point with just a few stitches. Then you increase little by little, until the triangle is big enough. Around the whole kerchief you crochet a wavy edge with flag stripes. If you like, you also crochet a flag in the middle. At the end you make two ties to fasten with.

WHAT YOU LEARN

- To crochet a triangle in single crochet
- To increase stitches at the sides
- To crochet a flag in two colours (optional)
- To crochet a tie
- To make a wavy edge

IS IT HARD?

Beginner. If you can crochet chains and single crochet and increase, you can do this. Everything else is given step by step. Ask a grown-up if you get stuck.

HOW TO READ THE NUMBERS

The kerchief comes in two sizes. The numbers are written like this:

child (adult)

For a child use the first number. For an adult use the number in brackets.

One step at a time. And it becomes a kerchief in the end.

WHAT YOU NEED

YARN

DROPS Paris (100% cotton). A thick, soft cotton yarn. You crochet with a 5 mm hook.

Colour	Child	Adult
● Red	1 ball	2 balls
○ White	1 ball	1 ball
● Navy blue	1 ball	1 ball

ALSO THIS

- A 5 mm crochet hook
- A **stitch marker** (or a little loop of yarn)
- A **tapestry needle** with a blunt tip
- Scissors

GAUGE SWATCH

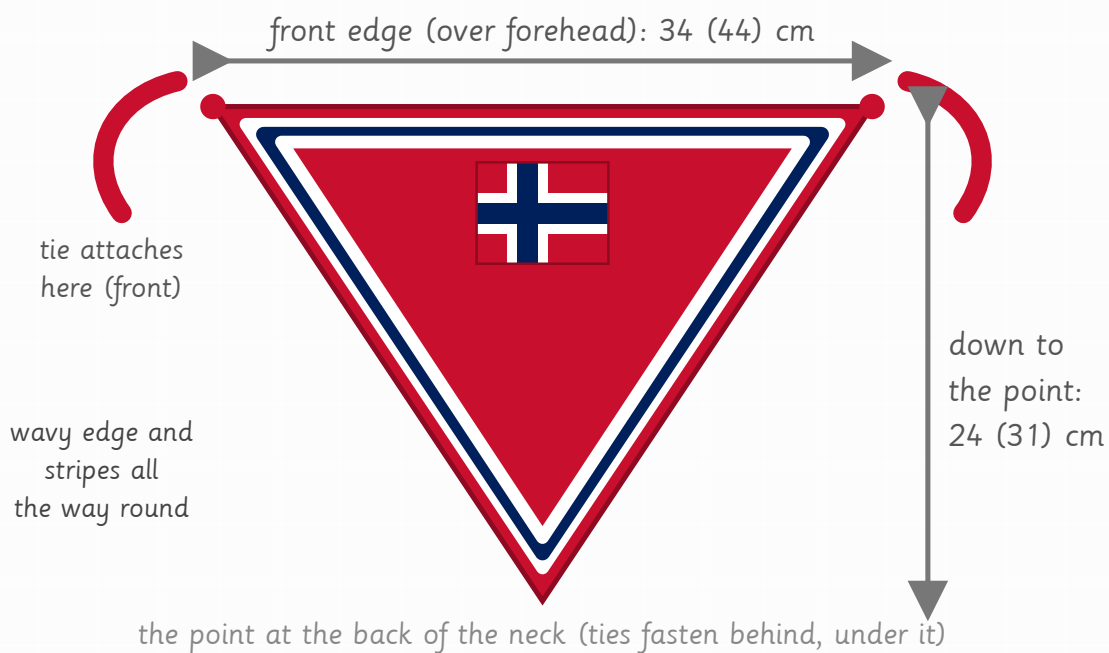

Crochet a little swatch first. Crochet 20 single crochet back and forth until the swatch is 10 cm tall. Lay it flat. Is 10 cm the same as 14 single crochet? Then you are ready. If there are more stitches, switch to a 5.5 mm hook. If there are fewer, switch to a 4.5 mm hook.

SIZES AND MEASUREMENTS

HOW BIG?

The kerchief is a triangle. The wide front edge lies over the forehead. The point hangs down at the back of the neck. The ties attach at the two front corners and fasten at the back, under the point.

	Child	Adult
Front edge (over forehead)	approx. 34 cm	approx. 44 cm
Down to the point	approx. 24 cm	approx. 31 cm
Each tie	approx. 30 cm	approx. 35 cm

You can make the ties longer if you like. Then they are easy to tie.

GLOSSARY

Term	Means
st	stitch
ch	chain
sc	single crochet, the most common stitch
sl st	slip stitch, a flat stitch that joins
row	one pass, when you have crocheted across and turned
increase	make more stitches. Here: crochet 2 sc in the same stitch, so you get one more stitch.
turn	turn the work and crochet back the other way
tapestry	crocheting in several colours, letting the colour you are not using stay hidden inside

HOW THE KERCHIEF IS BUILT UP

- 1 The triangle:** You start at the point and increase until the triangle is big enough. If you want a flag, you crochet it in the middle.
- 2 The wavy edge:** Around the whole kerchief you crochet a wavy edge with white and blue stripes.
- 3 The ties:** At the end you crochet two ties to fasten at the back of the neck.

HOW TO CROCHET IN THE FLAG

You only need this page if you want the flag (the simple version skips it). You crochet the flag in two colours with the tapestry technique. You crochet with red where the square is red, and with white or blue where the square is white or blue. The colour you are not using, you lay on top of the row and crochet around, so it stays hidden inside. The flag chart is on page 10.

THREE THINGS TO REMEMBER

1

front

Crochet each single crochet in the colour the square shows. Red is the background, white or blue is the pattern.

2

change colour

Change colour on the last step of the stitch before: pull the new colour through the last two loops on the hook. That keeps the change clean.

3

yarn inside

The colour you are not using, lay it on top of the row and crochet around it. Then it stays hidden inside, ready to use. Keep it loose, not tight.

GOOD ADVICE

- Keep the yarn inside loose. If you pull too hard, the crochet bulges. Better too loose than too tight.
- Read each row from the bottom up. When you turn the work, you read every other row the opposite way.
- Count the squares in the chart and the stitches on the kerchief. Counting right is half the job.
- Crochet a little swatch in two colours first if you like.

PART 1: THE TRIANGLE

Remember: child (adult). You crochet single crochet back and forth, turning at each row.

- 1 Start at the point with red. Chain 2, and crochet 2 **single crochet** in the first chain. Now you have 2 stitches. This point ends up at the back of the neck.
- 2 Turn with 1 chain. Crochet 1 sc in each stitch back.
- 3 Now you increase at both ends. On each row: crochet 1 sc in the first stitch, **2 sc in the next** (increase), sc across until 1 stitch remains, **2 sc in the last**. Turn with 1 chain. That gives 2 more stitches each row.
- 4 Keep going like this. The triangle grows bigger and bigger. Crochet until the wide **front edge** measures **34 (44) cm**. That is the edge that lies over the forehead.
- 5 Want a flag? Choose where it goes. **Flag at the front:** crochet it in the middle when about 5 cm remain before the wide front edge. Then the flag ends up high, over the forehead. **Flag at the back:** crochet it in the middle a little after you started the triangle, while it is still narrow (about 13 to 16 stitches wide). Then the flag ends up down near the point, at the back of the neck. Follow the flag chart on page 10. If you want it simple, skip the flag.
- 6 Fasten off when the front edge is done, or leave the loop if you go straight on to the edge.

Dropped a stitch? Take it easy. Undo a few stitches and crochet again, or ask a grown-up for help.
Nothing is ruined.

PART 2: WAVY EDGE ALL AROUND

Now you make the wavy edge with flag stripes **around the whole kerchief**. The waves come from crocheting many stitches into a small space.

- 1 Crochet single crochet in red **around the whole edge**: along the wide front edge, down one side to the point, and up the other side back. Crochet about 3 stitches for every 4 you pass. At the point and at the two front corners, crochet 3 sc in the same stitch so it does not pull tight. End the round with 1 slip stitch in the first stitch.
- 2 Increase to **about twice as many** stitches: crochet 2 sc in every other stitch all the way around. Now the edge starts to ripple.
- 3 Crochet stripes: **1 round white, 1 round navy blue, 1 round white**. Change colour with a slip stitch at the end of each round.
- 4 Wave round in red: **3 sc in the same stitch, skip 1 stitch**, and repeat all the way around. That makes the edge ripple nicely.
- 5 Fasten off well. Crochet loosely, so the waves stay soft.

SIMPLE VERSION (great for the youngest, about 8 years):

Skip the flag in Part 1. Crochet just the red triangle, and make this wavy edge with the stripes. Then you never need two colours at once, only one colour at a time. Just as lovely!

PART 3: THE TIES TO FASTEN WITH

The ties are easy to crochet. You make two matching ties of chains, one for each front corner.

HOW TO MAKE A TIE

- 1 Attach red yarn in one **front corner** (where the front edge meets the side).
- 2 Crochet a long row of **chains** until the tie is **30 (35) cm**.
- 3 For a firmer, rounder tie, crochet 1 slip stitch back into each chain. That makes the tie thicker and nice.
- 4 Fasten off well, and sew the end in with the tapestry needle.

ATTACH THE TIES

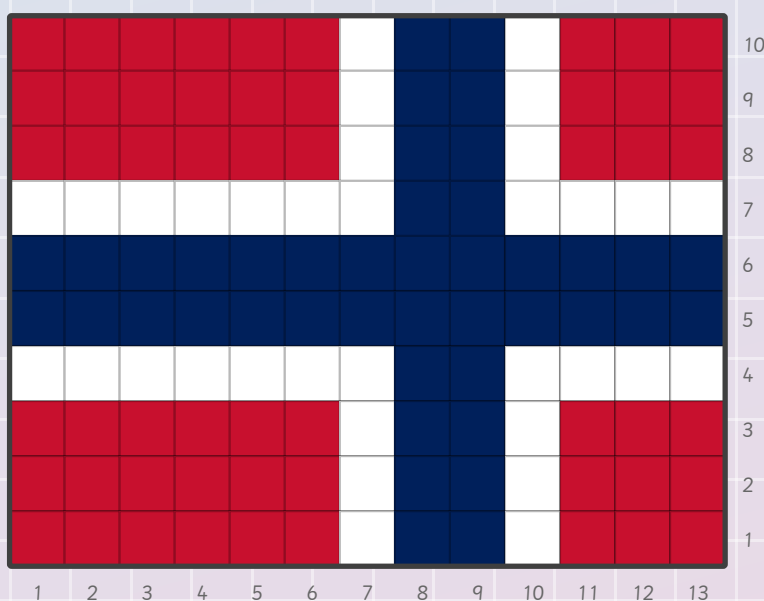

- Make **two ties**, one in each front corner.
- Put the kerchief on the head: the wide front edge over the forehead, the point down at the back of the neck.
- Bring the two ties round the back and tie them together **behind, under the point**.
- If you like, make a little tassel or knot at the end of each tie.

CHART: THE FLAG

The flag is optional. If you want it, you crochet it in the middle of the triangle. One square is one stitch. White square: crochet with white. Blue square: crochet with blue. Red square: crochet with red. Read from the bottom up. The blue line in the cross should run all the way through, unbroken.

The chart is shown upside down, because the kerchief begins at the point and is worked upwards. Crochet from the chart as it appears here, and the flag will come out the right way on the finished kerchief.

THE FLAG, UPSIDE DOWN (13 SQUARES WIDE, 10 SQUARES TALL)

WHERE ON THE KERCHIEF? YOU CHOOSE

The flag always sits in the middle, between the two sides. You choose whether it goes at the front or the back:

- **Flag at the front (over the forehead):** crochet the flag in when about 5 cm remain before the wide front edge. Then the triangle is wide enough, and the flag sits high up.
- **Flag at the back (near the point):** crochet the flag in early, while the triangle is about 13 to 16 stitches wide. Then the flag sits down near the point, at the back of the neck.
- Either way: crochet red below, above and around the flag.

FINISHING AND CARE

RIGHT AT THE END

- 1 Weave in all loose ends on the back with the tapestry needle. Trim what is left.
- 2 Rinse the kerchief in lukewarm water, or wash at 40 degrees (cotton can take it).
- 3 Squeeze out the water in a towel. Do not wring!
- 4 Lay the kerchief flat to dry. Shape the wavy edge nicely while it is wet.

CHECKLIST

- All ends are woven in
- The flag sits in the middle
- The edge ripples
- The two ties are firmly attached

Congratulations! Now you have crocheted your very own kerchief.
Wear it with the hat, go Norway!

Happy summer!
