LME CROCHET PATTERN - BABY

FELIX'S ACTIVITY TOY

LME BABY COLLECTION - WOODLAND DREAMS

A soft activity cube, approx. 11 to 12 cm per side, with all six sides decorated: Felix himself in a sage green ruffled collar, a star side with a big powder pink star, a side with four small motifs (a heart, a leaf, a mirror and a cloud), a bigger baby-safe mirror in a sage green scalloped frame, Felix peeking out of a little sage green pocket with a tiny flower, and a crinkle side with a big, sleepy cloud that crinkles when you squeeze it. The edging around every side is sage green. Two wooden corner rings, one shaped like a little flower wheel, and a bead trim along the top complete the cube.

By Renate Dahl

Little Montessori Explorers

lmexplorers.com

IMPORTANT: This toy has many small parts. Read the whole safety page carefully before you start, and sew absolutely everything on with tight, double stitching.

ABOUT FELIX'S ACTIVITY TOY

PART OF FELIX'S WORLD

Felix's activity toy belongs to the LME Baby Collection "Woodland Dreams". Where Ellie's cube has one simple, undecorated bottom side, Felix's cube has something to explore on all six sides: Felix himself with his ruffled collar, a big star to feel, the mirror where the child meets their own reflection, four small motifs from the forest edge he loves, the pocket where Felix peeks out, and the cloud that crinkles on the crinkle side.

STYLE AND SENSES

Scandinavian and Montessori-inspired, with sage green edging around every side and sage green on Felix's own collar. Each side has its own task to explore, from recognising shapes to hearing a little cloud crinkle, exactly the kind of sensory, hands-on play the Montessori philosophy is built on.

MOST IMPORTANT OF ALL: SAFETY

This toy has more small parts than any other pattern in the Felix collection, and also includes a small mirror, two wooden rings and a crinkle sheet. Everything must be sewn on with double strength, and page 18 is entirely dedicated to safety. Read that page carefully before you begin.

MATERIALS AND YARN ALTERNATIVES

YARN

Bystrikk Merino in cream (the cube sides) and sage green (the edging colour and the mirror frame), plus leftover rust orange for Felix's head, sage green for the collar and the leaf, powder pink for the star and the heart, and yellow/mustard for the little mirror frame, the same yarn family as the rest of Felix's pattern.

Alternative yarn: any soft cotton-blend DK-weight yarn works well, for example DROPS Safran or Hobbii Amigo.

TOOLS AND SUPPLIES

- Heklenål 3 eller 3,5 mm
- Seks tynne skumkvadrater eller stiv filtplate, ca. 10 x 10 cm · BPA-fri, til å gi kubens form, skal alltid være helt innsydd
- Polyesterfiber til fyll · til hjørner/kanter og til Felix-motivene
- Babysikkert speil (akryl/plast, ikke glass) · liten, rund speilplate beregnet for babyprodukter, se side om speilet
- To trerelaterte teetheringer · umalt/BPA-fri, CE-merket, beregnet for barn, til hjørnene, gjerne én formet som et lite blomsterhjul, som i referansebildet
- Runde treperler i noen få størrelser · BPA-frie, til topphåndtaket og hjørneduskene
- Knitrefolie beregnet for babyprodukter (liten bit) · til knitresiden, se side om knitresiden
- Stoppenål med butt spiss og tvinnet bomullstråd · til all somming
- Saks og målebånd

DIFFICULTY, SIZE AND GAUGE

DIFFICULTY

Medium to challenging: many small parts, six panels that must all match in size, and a technique new to the collection, sewing the panels together into a three-dimensional cube. A good pattern once you have crocheted at least one of the other Felix patterns first.

FINISHED SIZE

The cube is approx. 11 to 12 cm per side, depending on your gauge and the thickness of the inner stiffening.

GAUGE

Crochet tightly, amigurumi tension: approx. 20 sc x 22 rows = 10 x 10 cm on a 3 mm hook.

ABBREVIATIONS (NORWEGIAN AND US)

Here are all the abbreviations used in this pattern, with the common US crochet terms alongside.

Norwegian	US	Means
lm	ch	luftmaske / chain
fm	sc	fastmaske / single crochet
halvstav	hdc	halv stav / half double crochet
stav	dc	stav / double crochet
kjm	sl st	kjedemaske / slip stitch
økn	inc	økning: 2 fm i samme maske
mink	dec	minking: 2 fm sammen
m	st(s)	maske(r)
...	*...*	gjenta det mellom stjernene så mange ganger som står bak

TIPS BEFORE YOU START

- Crochet all six base squares first, and check that they are exactly the same size before starting on the decorative motifs.
- Lay all the finished sides next to each other and plan which side should face which way, before sewing anything together.
- Insert the foam squares last, right before sewing the final seam closed, so the cube holds its shape without making the sewing difficult.

HOW THE ACTIVITY CUBE IS BUILT

The cube has six sides, and unlike Ellie's cube, Felix's version has something to explore on every single side, none of them are kept plain and undecorated:

1. The base squares

six matching panels with a sage green edging colour

3. The mirror side

baby-safe mirror in a sage green scalloped frame

5. The shapes side

a heart, a leaf, a small mirror and a small cloud

7. The crinkle side

a big, sleepy cloud with crinkling material inside, that crinkles when squeezed

9. The top handle

a bead trim along the top seam

2. The Felix side

the front, with a sage green ruffled collar

4. The star side

a big powder pink star

6. The pocket side

a miniature Felix peeking out of a sage green pocket

8. Assembly and stiffening

the six sides sewn into a cube

10. The corner rings and tassels

two wooden rings and two bead tassels

PART 1: THE BASE SQUARES

All six sides of the cube start as the same simple square. Crochet the motifs onto them afterwards, side by side.

Chain 24 + 1 turning chain in cream. Row 1: 24 sc. Repeat row 1 (turning between each row) until the piece is square, approx. 11 x 11 cm, roughly 22 to 24 rows depending on your gauge. Fasten off. Crochet six matching squares in total.

**Edge each square with one round of sc in sage green all the way around (sc evenly along the sides, 3 sc in each corner so it lies flat). Fasten off and weave in the end.
This gives the blue border you see around each side in the reference photo.**

PART 2: THE FELIX SIDE

The front of the cube is Felix himself, with a little ruffled collar, the same technique as on his rattle and the stroller toy's medallion. Unlike Ellie, Felix does not wear a bow.

Rnd	Description	Sts
1	6 sc in a magic ring, rust orange	6
2	inc x 6	12
3	(1 sc, inc) x 6	18
4	(2 sc, inc) x 6	24
5 to 6	24 sc, 2 rounds	24
7	(2 sc, dec) x 6 - stuff very lightly	18
8	dec x 6	9

Cut, leaving a long tail. Sew on two small, pointed, folded ears (rust orange outside, cream inside, the same technique as on Felix himself) on top, and embroider a small face.

The mini tail: instead of a bow, Felix has his own signature detail. Crochet a little two-tone tail (6 sc in a magic ring rust orange, inc x 6, 2 rounds of 12 sc, switch to cream, 1 round of 12 sc, dec x 6, stuff lightly) and sew it onto the top of the back of the panel, right behind where the head will be sewn on, so it does not show from the front, just like the tail is hidden behind Felix's own body. This is an adaptation of his signature detail to a flat panel shape, since a fully visible tail would not show in a straight-on front photo.

THE RUFFLED COLLAR (SAGE GREEN)

The ruffled collar: attach sage green yarn at the bottom edge of the head. *1 sc in the next stitch, skip 1 stitch, 5 dc in the next stitch (a little fan), skip 1 stitch*, repeat all the way around the bottom edge. Fasten off. Finally, sew Felix's head securely onto the middle of the panel, over the mini tail.

PART 3: THE MIRROR SIDE (BABY-SAFE)

The mirror is the only hard part in this toy, and requires extra care.

Crochet two matching circles in cream, a little bigger than the mirror disc itself: 6 sc in a magic ring, inc x 6 (12), (1 sc, inc) x 6 (18), (2 sc, inc) x 6 (24). Place the mirror disc between the two circles, and sew them together around the entire edge with very tight stitches, so the mirror is fully enclosed and cannot be removed or slide out of the pocket.

The scalloped frame: attach sage green yarn directly into the outer edge of the sewn-in mirror circle, and crochet one round: 24 sc all the way around. Continue straight into the scallops, without joining the round: *skip 1 st, in the next st: 1 sl st, 2 ch, 3 dc, 2 ch, 1 sl st*, repeat until you have eight scallops all the way around the mirror, just like the scalloped frame in the reference photo. Fasten off and weave in the end. Sew the mirror with its frame securely onto the middle of the panel.

Use only a flexible, unbreakable baby-safe mirror intended for children's products, never real glass. Check that the mirror disc has no sharp edges before you insert it.

PART 4: THE STAR SIDE

A dedicated side with a big, sleepy star, a nice soft surface for little ones to feel.

Crochet two matching stars in powder pink: crochet 5 sc in a magic ring. Continue straight into the points: *1 sc, 1 ch, 2 dc, 1 ch, sl st in the same stitch*, repeat until all 5 stitches have a point. Fasten off, leaving a long tail (make 2). Place the two stars together, stuff very lightly, and sew them together around the entire edge. Feel free to embroider a small sleepy face (two closed eyes and pink cheeks) in the middle of the star, just like in the reference photo, before sewing it onto the middle of the panel.

PART 5: THE SHAPES SIDE

Four simple, recognisable motifs on one panel: a heart, a leaf, a small mirror and a small cloud, a nice start to shape recognition for little ones.

THE HEART (POWDER PINK)

Crochet two matching halves: 6 sc in a magic ring, inc x 6 (12), fasten off (make 2). Sew the two halves together along a straight edge at the top, and gently press them down towards a point at the bottom, into a heart shape. Press flat and sew on.

THE LEAF (SAGE GREEN)

Chain 7. Starting in the 2nd ch from the hook: 1 sl st, 1 sc, 1 hdc, 2 dc in the last ch (the tip), turn and continue along the other side of the chain: 1 hdc, 1 sc, 1 sl st. Fasten off, leaving a long tail, press flat and sew on.

THE SMALL MIRROR (YELLOW)

Crochet 6 sc in a magic ring, inc x 6 (12), (1 sc, inc) x 6 (18) in yellow/mustard, as a frame around a small baby-safe mirror piece. Fasten off, press flat, place the mirror piece inside and sew the edge securely closed, just like the big mirror side, only in miniature.

THE SMALL CLOUD (SAGE GREEN)

Crochet three overlapping circles in sage green: (a) 6 sc in a magic ring. (b) 6 sc in a magic ring, inc x 6 (12). (c) 6 sc in a magic ring, inc x 6 (12), (1 sc, inc) x 6 (18). Overlap and sew the three circles together into a small cloud shape. Press flat and sew on, with a few tiny embroidered stars around it if you like, as in the reference photo.

PART 6: THE POCKET SIDE

A tiny miniature Felix peeks up out of a sage green pocket at the bottom of the panel, a little peekaboo surprise.

The pocket: chain 12 + 1 turning chain in sage green. Row 1: 12 sc. Repeat row 1 for 8 rows in total. Fold the piece in half and sew together along the two short sides and the bottom, so it becomes a small, open pocket. Feel free to sew a tiny white flower onto the pocket, as in the reference photo. Sew the pocket's bottom edge onto the bottom of the panel, with the opening facing up.

Miniature Felix: 6 sc in a magic ring, rust orange (6), inc x 6 (12), (1 sc, inc) x 6 (18), 1 round straight (18), dec x 6 (9), stuff very lightly. Fasten off, leaving a long tail. Sew on two tiny, pointed ears and embroider a small face, just like on the Felix side.

Sew the miniature Felix securely just behind the pocket opening, a little higher than the pocket itself, so that only the head pokes up out of the pocket, as if he is peeking out. Felix must be sewn completely onto the panel, not just placed loosely inside the pocket.

PART 7: THE CRINKLE SIDE

This side offers a completely different sense to explore: sound. Inside the big, soft, sleepy cloud you place a crinkling material, a crinkle sheet intended for baby products, safely sewn completely inside the cloud, so that it crinkles right where the child squeezes it.

The cloud, front and back: crochet two matching sets of three overlapping circles in cream, the same method as the cloud on Felix's stroller toy: (a) 6 sc in a magic ring. (b) 6 sc in a magic ring, inc x 6 (12). (c) 6 sc in a magic ring, inc x 6 (12), (1 sc, inc) x 6 (18). Overlap and sew the three circles together into a cloud shape. Crochet two matching clouds in total, one for the front and one for the back of the pillow. Feel free to embroider a small sleepy face (closed eyes, pink cheeks), a few tiny stars and a small heart around the cloud, just like in the reference photo.

Place a small sheet of crinkling material, a crinkle sheet intended for baby products, between the two clouds, and sew them together around the entire edge with tight stitches, so the sheet is fully enclosed and cannot be removed. This is what makes the crinkle sound: when the cloud is squeezed, the crinkle sheet inside crumples and makes the crisp, crinkling sound the child will discover. Sew the finished, filled cloud securely onto the middle of the panel. LME recommends that the crinkle sheet is never left loose, only sewn into a fully closed pocket, just like the mirror.

PART 8: ASSEMBLING THE CUBE

Unlike Ellie's cube, all six sides of Felix's cube have their own motif. You still sew them together into a cube in exactly the same way.

- 1 Lay out the six finished panels in the order you want them: the Felix side at the front, the crinkle side at the back, the mirror side and the star side on either side, the pocket side on top, and the shapes side underneath.
- 2 Sew together five of the six seams with tight edging stitches or a whip stitch, right sides out, so you have an open cube with only one hole left.
- 3 Insert the six foam squares, one into each side, through the last open hole, along with a little loose stuffing in the corners for a soft feel.
- 4 Sew the last hole closed just as tightly and securely as the other five seams.
- 5 Go over all six seams once more on the outside, with tight stitches, for extra strength where little hands will pull and squeeze.

PART 9: THE TOP HANDLE

Thread a selection of round wooden beads and yarn-covered balls (powder pink, sage green, sage green and yellow/mustard, just like in the reference photo) onto a short, sturdy cotton cord, in whatever order you like. Sew both ends of the cord securely along the top seam, between the Felix side and the pocket side, so the row of beads forms a small arch over the top, like a handle.

The bead balls are crocheted just like the balls on the pacifier clip: 6 sc in a magic ring, inc x 6 (12), 12 sc for 2 rounds, dec x 6 (6), stuff lightly and fasten off.

PART 10: THE CORNER RINGS AND TASSELS

Sew a wooden teething ring securely into each of the two vertical seams flanking the Felix side (the seam towards the mirror side on one side, the seam towards the star side on the other), so the rings hang as in the reference photo. Feel free to make one of the rings shaped like a little flower wheel, for a bit of extra texture to feel. Each ring must be sewn on with several rounds of tight whip stitching, not just threaded loosely through the seam.

Make two short bead tassels in powder pink and sage green: thread 2 to 3 balls/beads (for example one yarn-covered ball in powder pink, one in sage green) onto a short cotton cord, no more than 6 to 8 cm long, and sew the fixed attachment point securely right next to each corner ring. No loop should be loose or long enough to stretch out beyond 8 cm.

ASSEMBLY, STEP BY STEP

- 1 Crochet the six base squares and edge them all in sage green.
- 2 Crochet the Felix side, the mirror side, the star side, the shapes side, the pocket side and the crinkle side, each onto its own base square.
- 3 Sew five of the seams together into an open cube, insert the foam squares and a little stuffing, and sew the last seam closed.
- 4 Attach the top handle along the top seam.
- 5 Attach the two corner rings and the two bead tassels into the seams flanking the Felix side.
- 6 Sew the crinkle sheet securely between the two clouds, and attach the finished cloud to the middle of the crinkle side.
- 7 Fasten every loose end securely on the inside of the pieces, and trim what is left.
- 8 Gently tug on every single part, ring and tassel, and press lightly on the cloud, to check that nothing comes loose, before the toy is used.

SAFETY, THE MOST IMPORTANT PAGE

MANY SMALL PARTS, ONE RULE: SEW EVERYTHING ON

This toy has more motifs and more different materials (yarn, wood, mirror, cord) than any other pattern in the Felix collection. Every single motif, every ring and every bead must be sewn on with strong, twisted cotton thread and plenty of tight stitches, going around at least twice. The mirror must always be fully enclosed in a closed pocket, never loose in the regular stuffing.

MORE IMPORTANT RULES

- Always use under adult supervision, especially the first few times, until you are confident every seam holds.
- No parts are glued. Everything is sewn on, nothing is attached with paperclips, safety pins or similar.
- Use only a baby-safe acrylic/plastic mirror, never real glass or a mirror intended for adults.
- The crinkle sheet must always be fully enclosed between the two cloud layers, never loose in the regular stuffing, and never accessible through an open seam.
- The corner rings' bead tassels must never be longer than approx. 6 to 8 cm, and must be sewn on, not just threaded loosely.
- The foam squares must always be fully enclosed inside the cube, never accessible or visible through an open seam.
- Check the toy regularly, and especially before every use: gently tug on every motif and ring, and press lightly on the cloud and the star. Discard or repair immediately if anything is loose.
- This pattern is a guide for home use. If the finished product is sold, it must always be checked, tested and marked as required under current local safety requirements and regulations for children's products/toys, which set strict requirements specifically for toys with many small, sewn-on parts and cords.

CARE AND WASHING

Hand wash gently in lukewarm water with a little mild soap, since the cube has many sewn parts and an inner stiffening. Rinse well. Gently press out the water in a towel, do not wring. Lay flat to dry, allowing plenty of time for the inner stiffening to dry completely, and check every seam carefully before using the toy again.

CONGRATULATIONS, THE ACTIVITY CUBE IS DONE!

Now you have crocheted the most detailed pattern in the whole Felix collection.
Well done, and happy exploring!

THE REST OF THE LME BABY COLLECTION

- Ellie, the little fawn
- Felix, the little fox
- Felix's pacifier clip
- Felix's rattle
- Felix's stroller toy
- Felix's ballerina shoes with a mini tail
